This translation practice conceives of the sentence as a chain, where only two elements have semantic value: the chain itself and the links, or words, of which it is composed, which are defined by their meaning and their position in the chain, and not, for example, by their relation to other links in the chain. According to Karen King, scholars have "unwittingly continued the project of ancient heresiologists", searching for non-Christian influences, thereby continuing to portray a pure, original Christianity.
